Your telephone

Pre-programmed key

to cancel an enquiry call

to access the various mail services

to automatically redial the last number dialled

to reduce receiver or ringer volume

to switch between two calls

to divert calls to another terminal

to activate ringer

to increase receiver or ringer volume

Installing the label on the telephone

A printed label is supplied with the telephone to be placed under the programmable keys.

- ① Insert a flat-tipped object into the slot
- ② Raise the cover.
- ③ Slide the printed label into position.
- ④ Lower the cover.

1. Making a call

1 1. Making a call

Off-hook

Dial

To make an external call, dial the "External call" code.
To call the operator, dial the "Operator call" code.

1 2. Calling using your personal directory

Off-hook

"Personal directory
programming" function
code

Programmed
numeric key

1 3. Redialling the last number dialled (Redial)

Off-hook

Redial

1 4. Making a call-back request

Your
correspondent
does not reply or
is busy

"Call-back
request" function
code

Hang up

2. Handling several calls

During a conversation, you can perform various operations such as call a second person or transfer the call to another number, etc.

2 1. Calling a second correspondent (enquiry call)

Dial directly

The first correspondent is placed on hold

3 Cancelling the enquiry call

Cancellation of enquiry call

You recover the first call

2 2. Answering a second call

During a call, a second correspondent tries to contact you:

"Consulting call on hold" function code

The first correspondent is placed on hold

2 3. Switching between calls (broker call)

You are in conversation and another call is on hold. To switch from one call to the other:

Broker call

2 4. Transferring a call

To transfer a call to another terminal during a conversation:

Number of
terminal to receive
call

Hang up

2 5. Conversing with two correspondents (3-way conference)

During a conversation, another call is on hold:

"Conference"
function code

To cancel the conference and recover your first correspondent, redial the "**3 party conference call**" code.

3. Customizing your telephone

3 | 1. Programming your personal code

The code of your terminal is 0000 by default.
To select or change your personal code:

Code of the
"Change personal
code" function

Enter the
present code

Enter the new
code

3 | 2. Programming your personal directory

Your personal directory contains up to 12 numbers (0 to 9, * and #).

"Personal
directory
programming"
function code

Numeric key on
which you want to
programme the
number

Number to
programme

To confirm

Personal directory numbers

0	4	8
1	5	9
2	6	*
3	7	#

3 3. Selecting your ringer tune

Terminal idle:

OR

Select the ringer
from the 16 options
(successive presses)

Adjust the volume

To confirm

4. While you are away - When you return

4 1. Forwarding your calls to another number (immediate forward)

Destination
number

Hang up

4 2. Forwarding your calls to the voice mail

Code of type
of forward

No. of recorded
message

Hang up

4 3. Cancelling forwarding on your return

Code of the "**Cancel forwarding**" function

OR

If forwarding activated
with this key

4 4. Consulting your messages on your return

The light indicates that messages have been received.

• Call-back requests

The call-back message is erased when the number is called back, even if the correspondent does not answer.

If there are several call-back requests, they are processed in chronological order, oldest request first; a request can only be processed once the preceding request has received a response.

*All the recorded call-back requests can be erased by entering the "**Consult call-back request**" function code.*

• Voice messages

Off-hook

Follow the instructions of the voice guide

Personal notes

Precautions for use

Caution: never let your telephone come into contact with water. You can nevertheless use a soft moist cloth to clean your telephone.

Never use solvents (trichlorethylene, acetone, etc.) as they risk damaging the plastic surfaces of your telephone. Never spray cleaning products on it.

If you use your telephone near an electronic source emitting a high level of electromagnetic radiation, you may hear a slightly audible modulation in the earpiece.

Conformity: this telephone is designed to be connected to an Alcatel OmniPCX 4400 PABX. It is classed SELV within the meaning assigned by standard NF EN 60950.

The CE marking indicates that this product complies with the following EC directives:

-  - 89/336/CEE (electromagnetic compatibility)
- 73/23/CEE (low voltage)
- 1999/5/CE (R&TTE)

Declaration of conformity

We,

ALCATEL BUSINESS SYSTEMS

32, avenue Kléber

92707 Colombes Cedex - France

declare that the following products are deemed to comply with the requirements of Directive 1999/5/CE of the European Parliament and the Council.

ALCATEL First Reflexes

Any unauthorized modification of the products makes this declaration of conformity null and void. A copy of the original of this declaration of conformity can be obtained by making a written request to:
